Sample Reteaching Activity Answers for Common Questions

Q1: What are the main factors that influence economic development?

Answer:

The main factors influencing economic development include natural resources, human capital (education and skills), infrastructure, political stability, access to technology, and participation in international trade. These elements collectively determine a country's capacity to grow and improve living standards.

Q2: How does the Human Development Index (HDI) differ from GDP per capita?

Answer:

While GDP per capita measures the average economic output per person, HDI provides a broader assessment of development by considering health (life expectancy), education (average years of schooling), and standard of living (GNI per capita). HDI offers a more comprehensive view of human well-being beyond mere economic output.

Q3: Why do some countries experience slower economic growth despite abundant natural resources?

Answer:

Natural resources alone do not guarantee growth. Factors such as poor governance, corruption, lack of infrastructure, inadequate education, and reliance on resource exports without diversification can hinder sustained growth. The 'resource curse' can lead to economic volatility and neglect of other sectors.

Q4: What strategies can developing countries implement to promote sustainable development?

Answer:

Developing countries can focus on:

- Investing in education and health to build human capital.

- Diversifying their economies to reduce dependence on resources.
- Implementing environmentally sustainable practices.
- Improving governance and reducing corruption.
- Enhancing access to technology and innovation.

Q5: How does international trade influence economic development?

Answer:

International trade allows countries to access larger markets, obtain essential goods and technologies, and attract foreign investment. It can boost productivity, create jobs, and improve living standards. However, unequal trading relationships and trade restrictions may pose challenges.
